By MoonRock

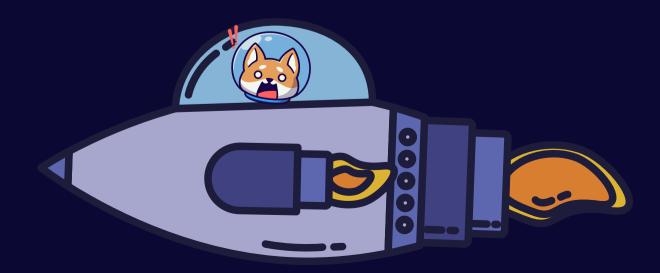

### +USE CASE

# MEME CHAIN CAPITAL IS THE FIRST COMMUNITY MEME INDEX FUND

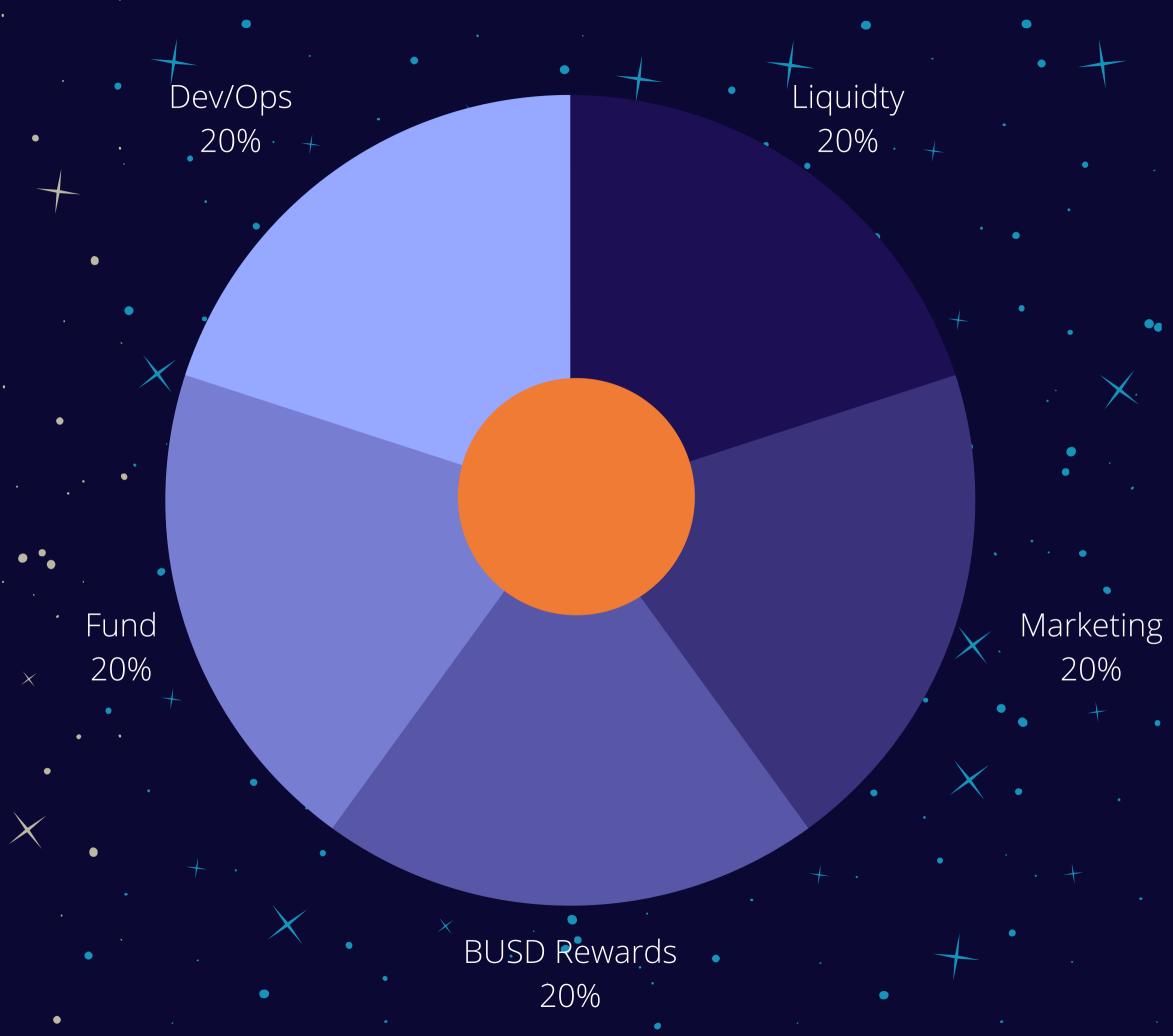

The Meme fund uses the community's vote to invest in meme coins, and uses profits from reflections + rewards to buyback-and-burn MEMES token. In some cases the community may vote to sell a portion of a meme coin to recover principal investment

#### Step 1

-Fair Launch
-CMC & CG
-PooCoin/BSCscan
Marketing
-Telegram Voting
-Audit

#### Step 2

-Dashboard Launch -Partnerships with meme projects

#### Step 3

-Use DAO for meme coin votes

Our fund wants to help MEME communities with the most active participants.

We will do this buy setting up voting systems in the MEME Chain Capital telegram and Twitter.

This will attract several meme communities to help their project get listed on our voting schedules and get the votes needed to receive an investment from our community fund.

This engagement will bring us followers and investors.
